

Numerical Growth Stakes, Districts, Missions

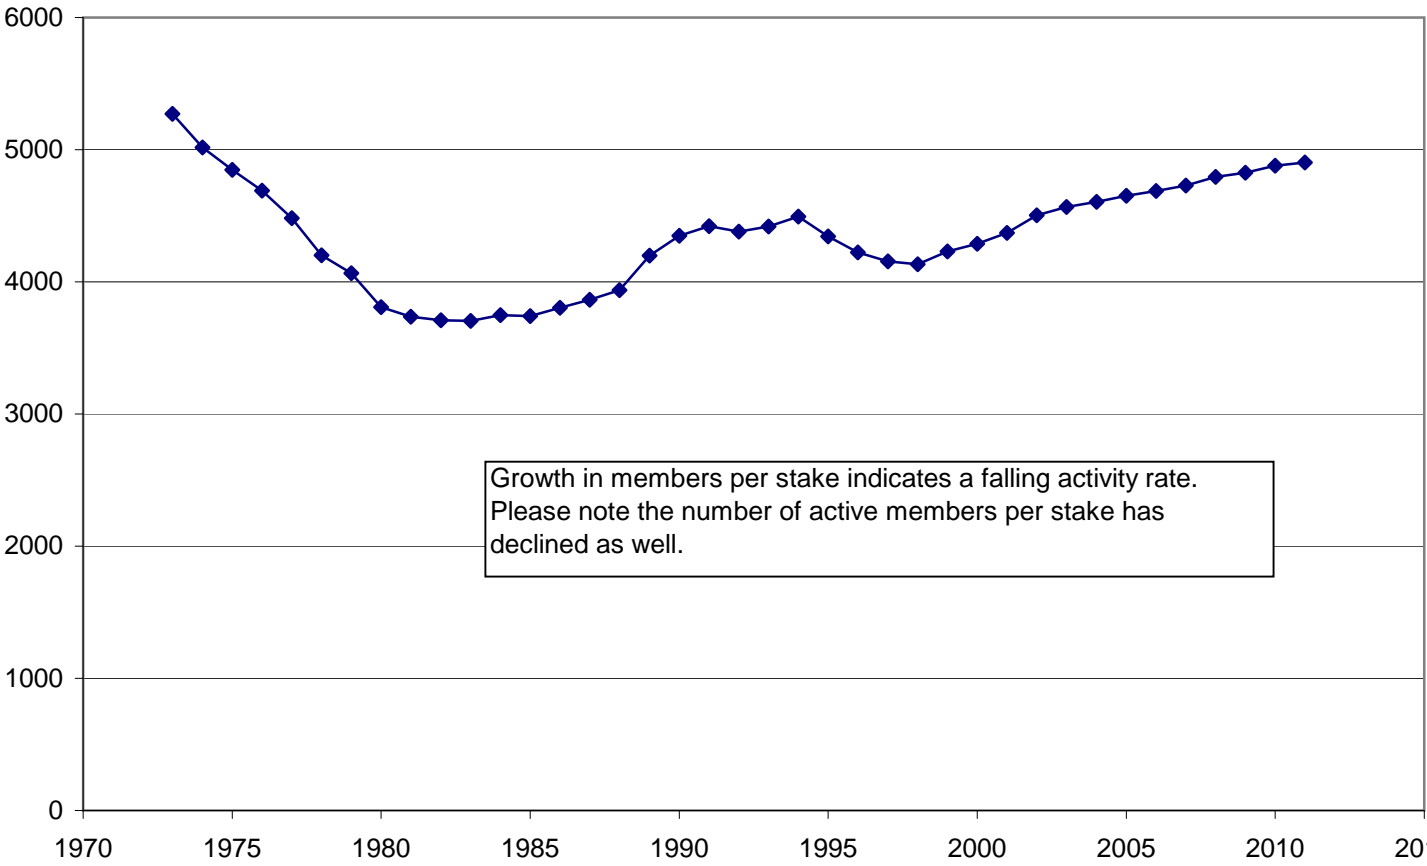

% Ward and Stake Increase

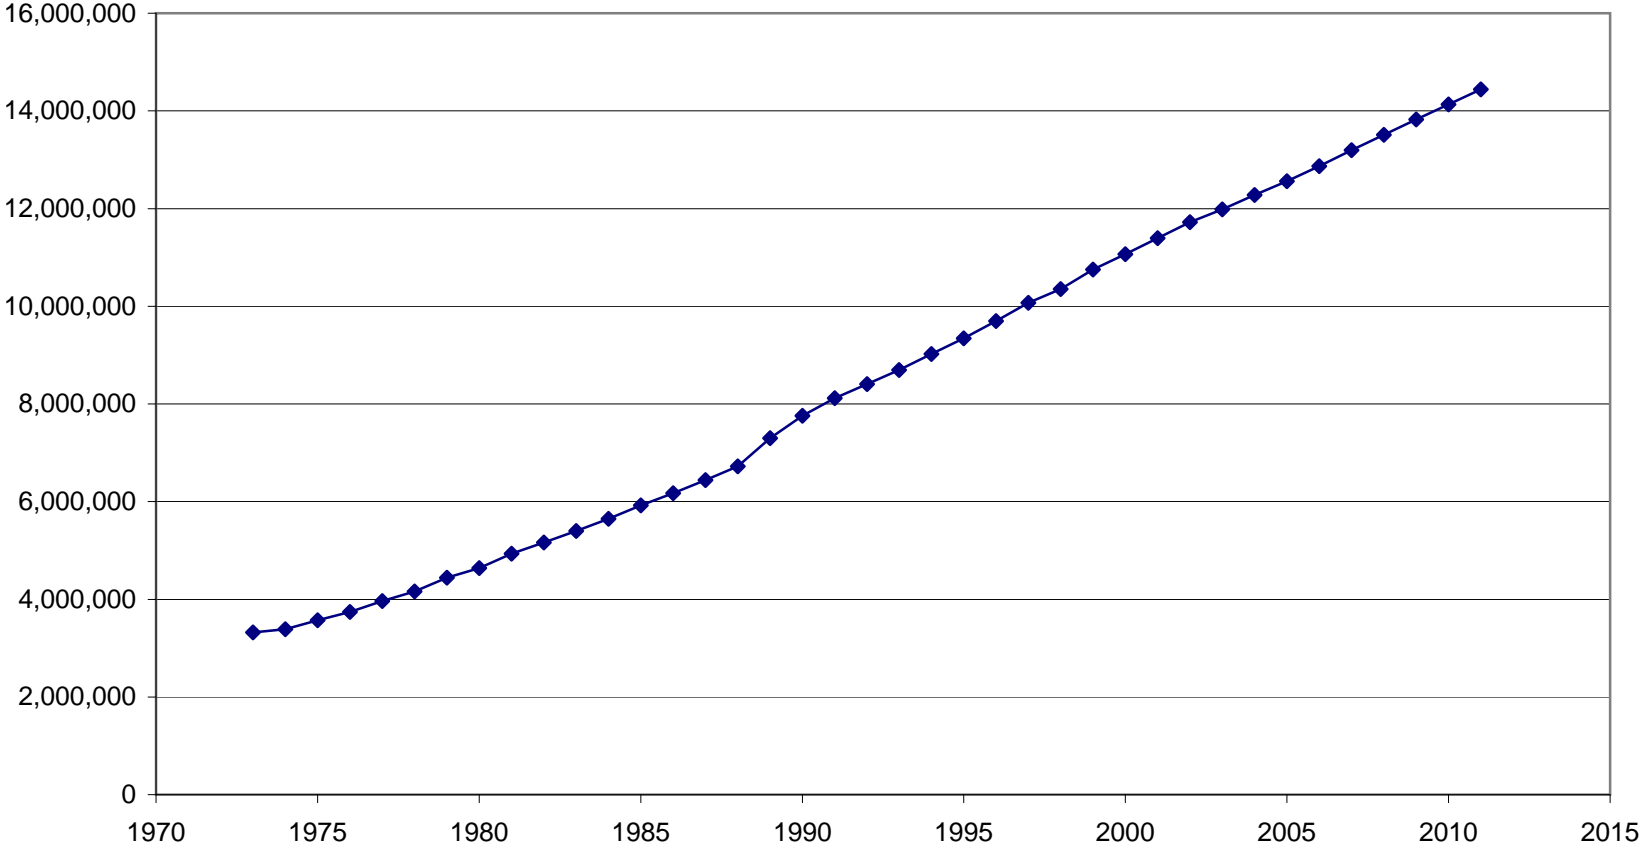

Members per Stake

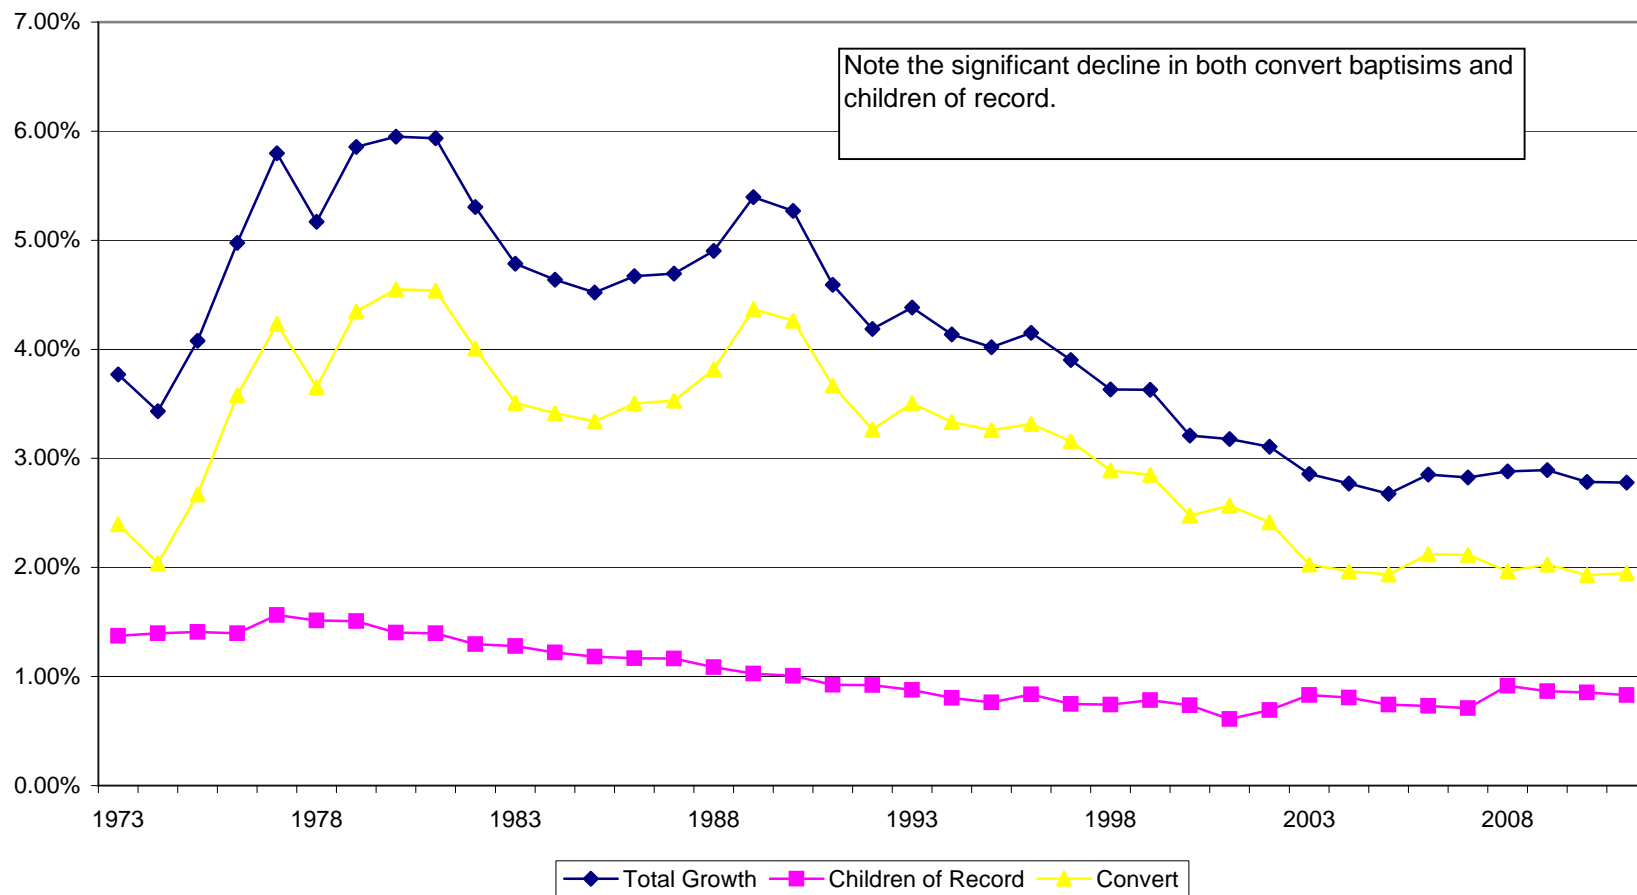

Growth in members per stake indicates a falling activity rate. Please note the number of active members per stake has declined as well.

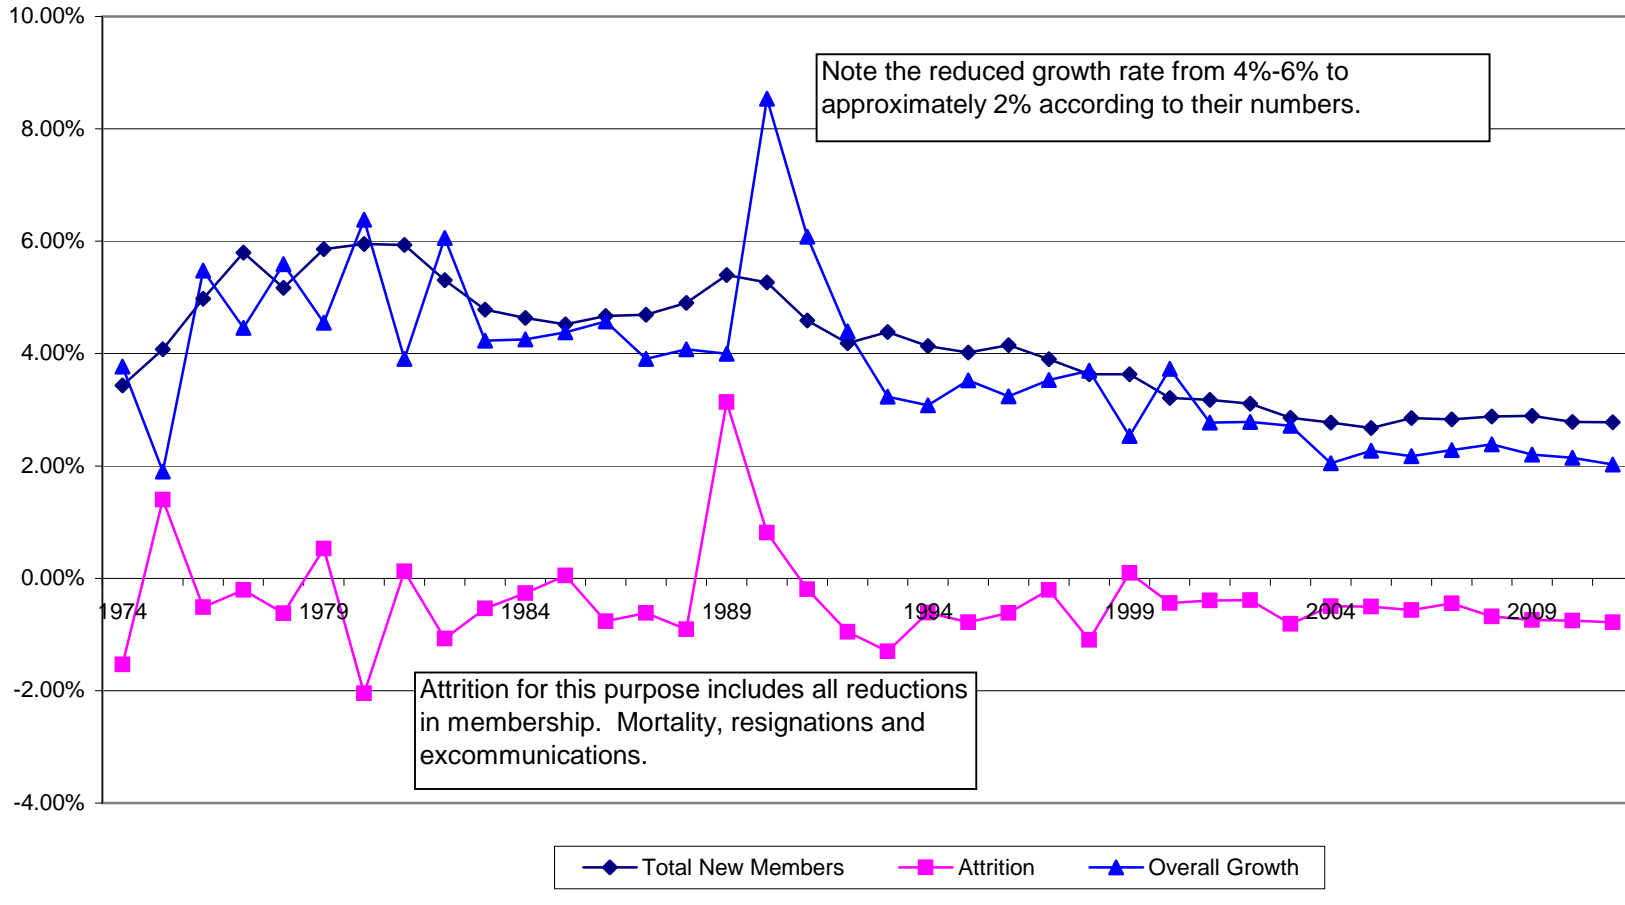

Total Membership

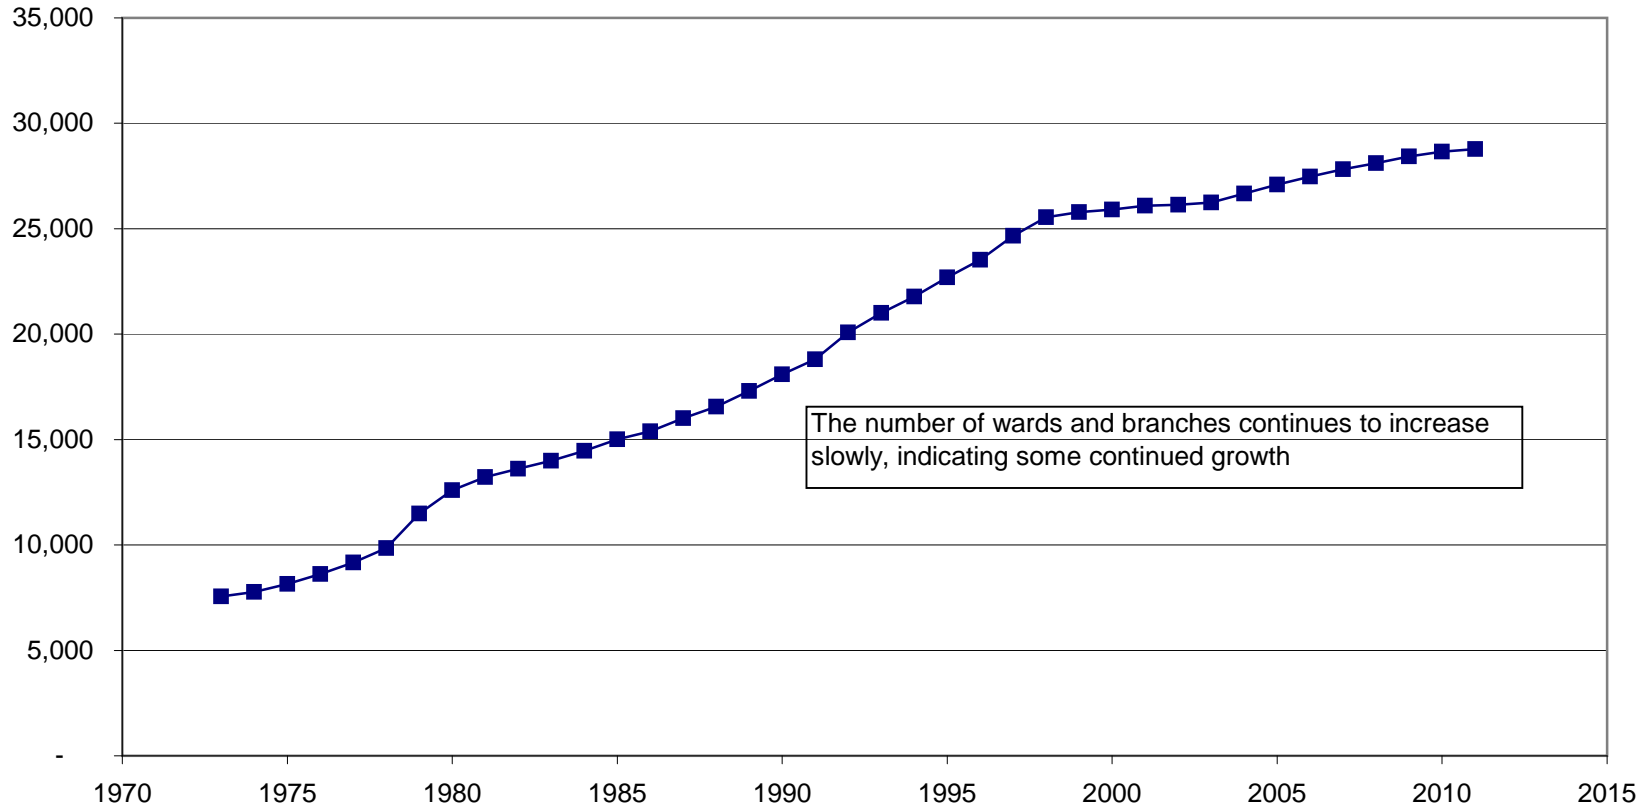

Percent New Membership

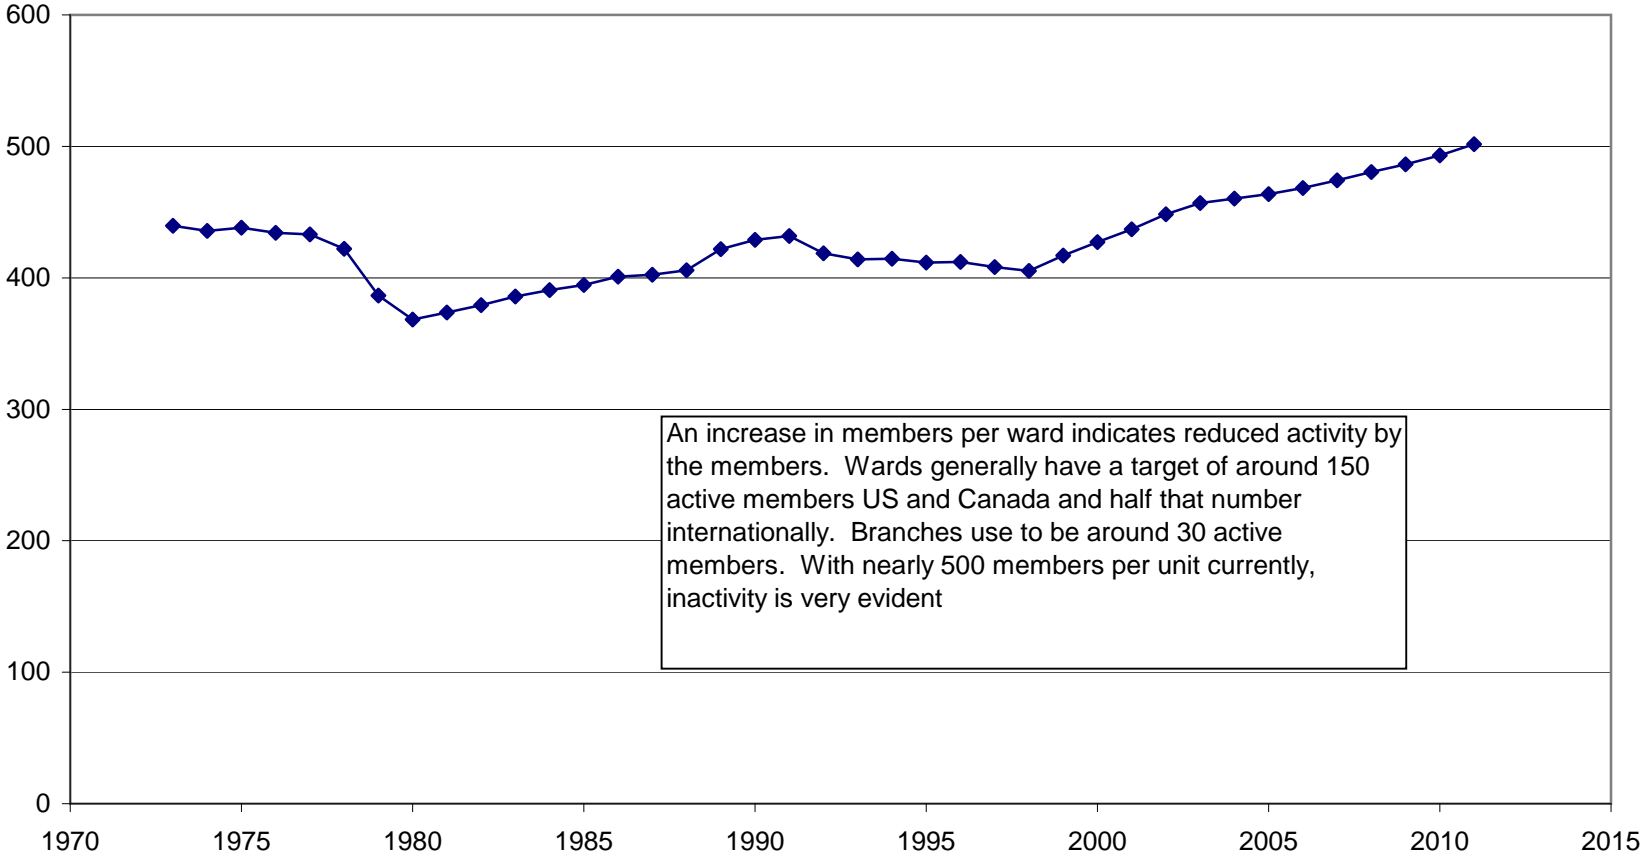

Overall Growth %

Wards/Branches

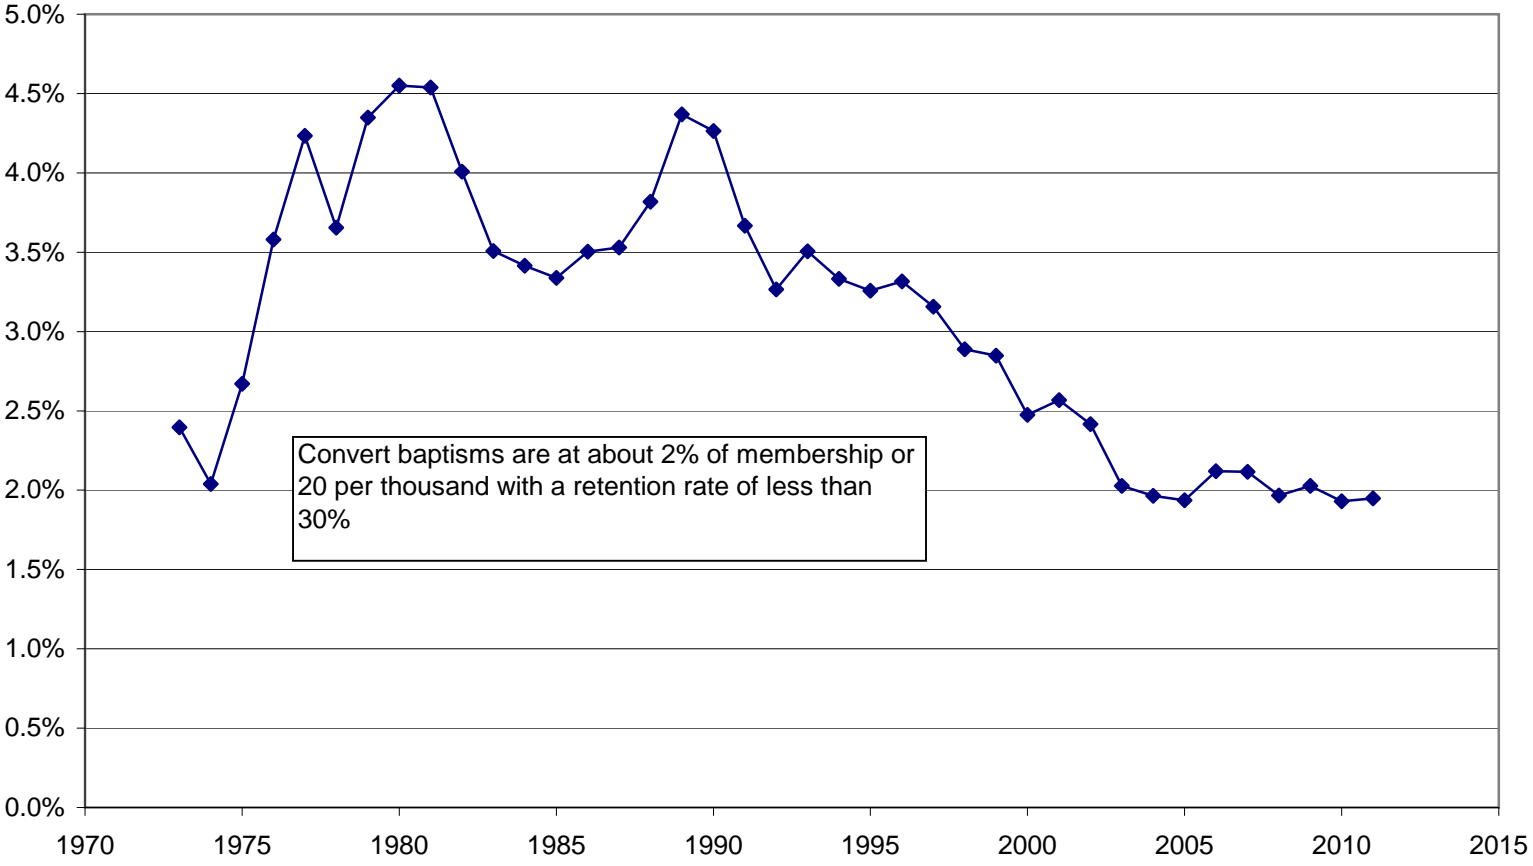

Members per Ward/Branch

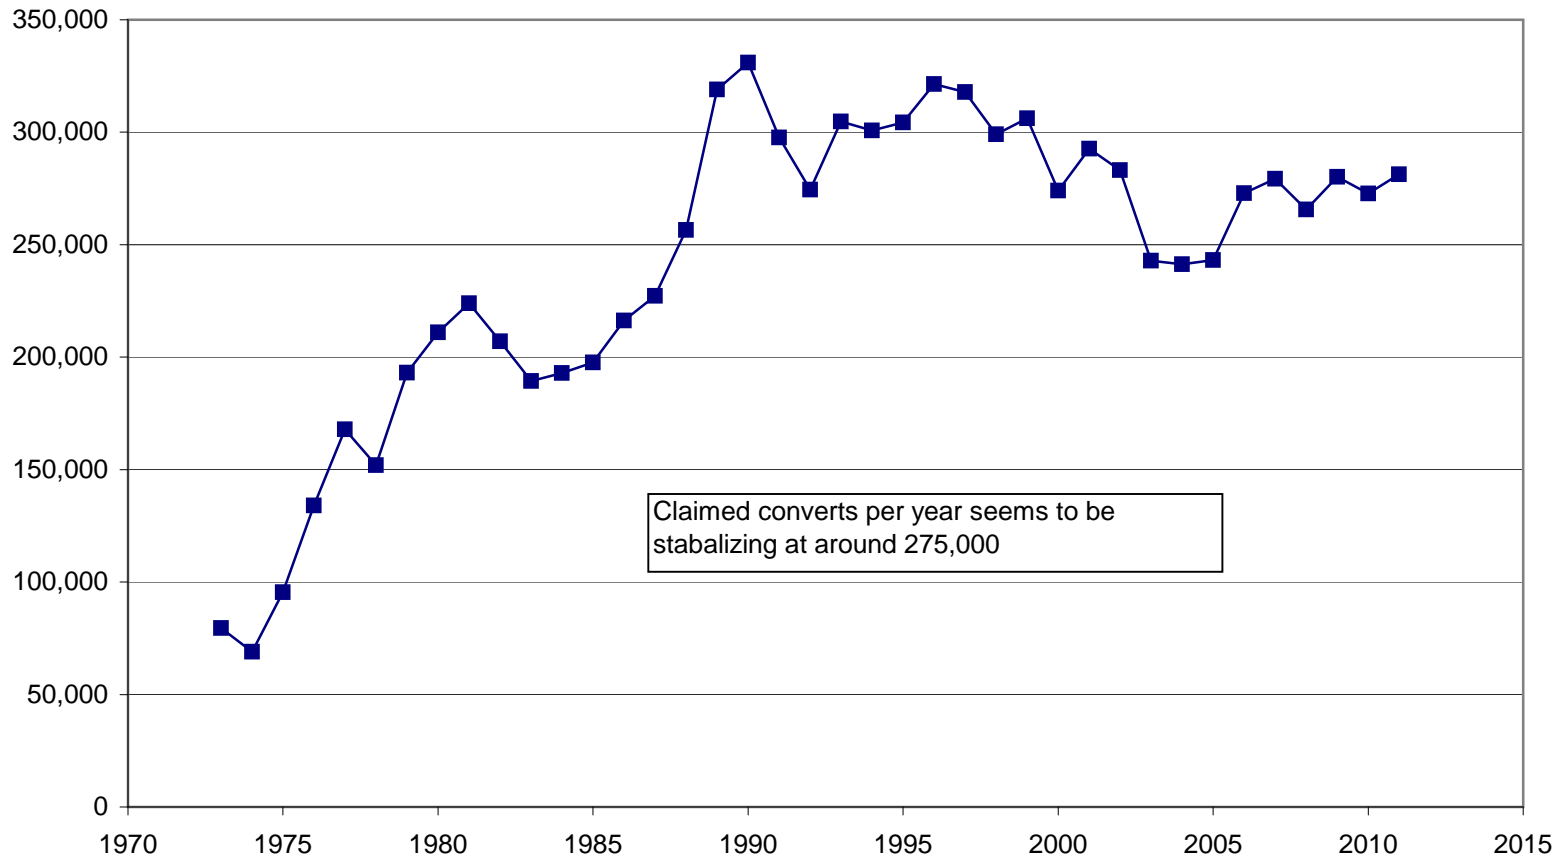

An increase in members per ward indicates reduced activity by the members. Wards generally have a target of around 150 active members US and Canada and half that number internationally. Branches use to be around 30 active members. With nearly 500 members per unit currently, inactivity is very evident

Converts per Member %

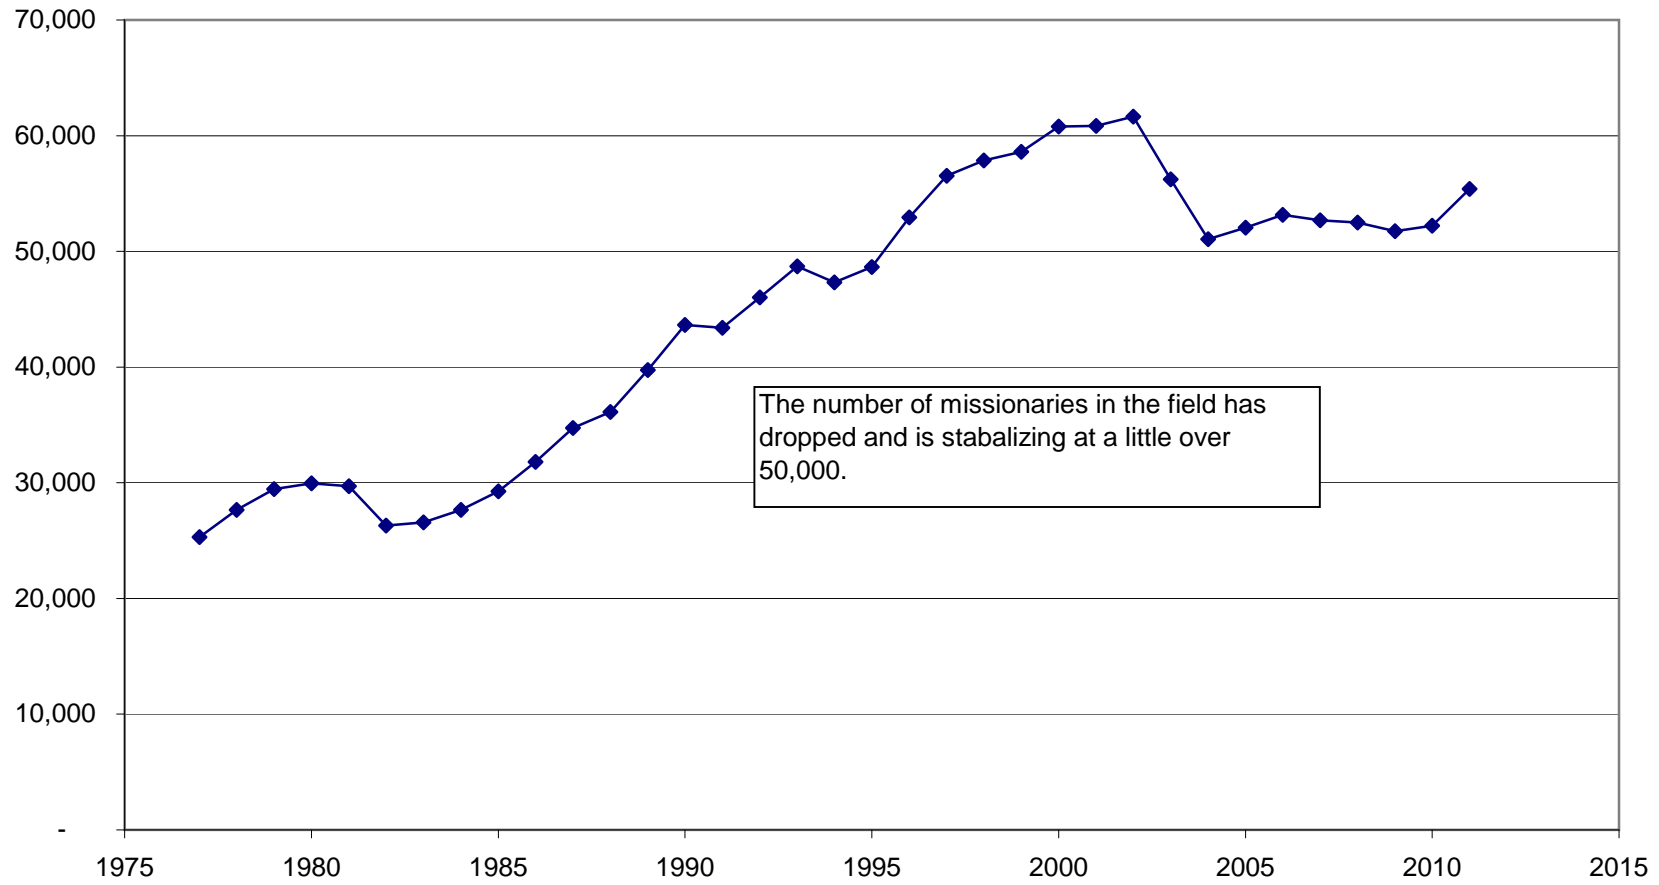

Converts per Year

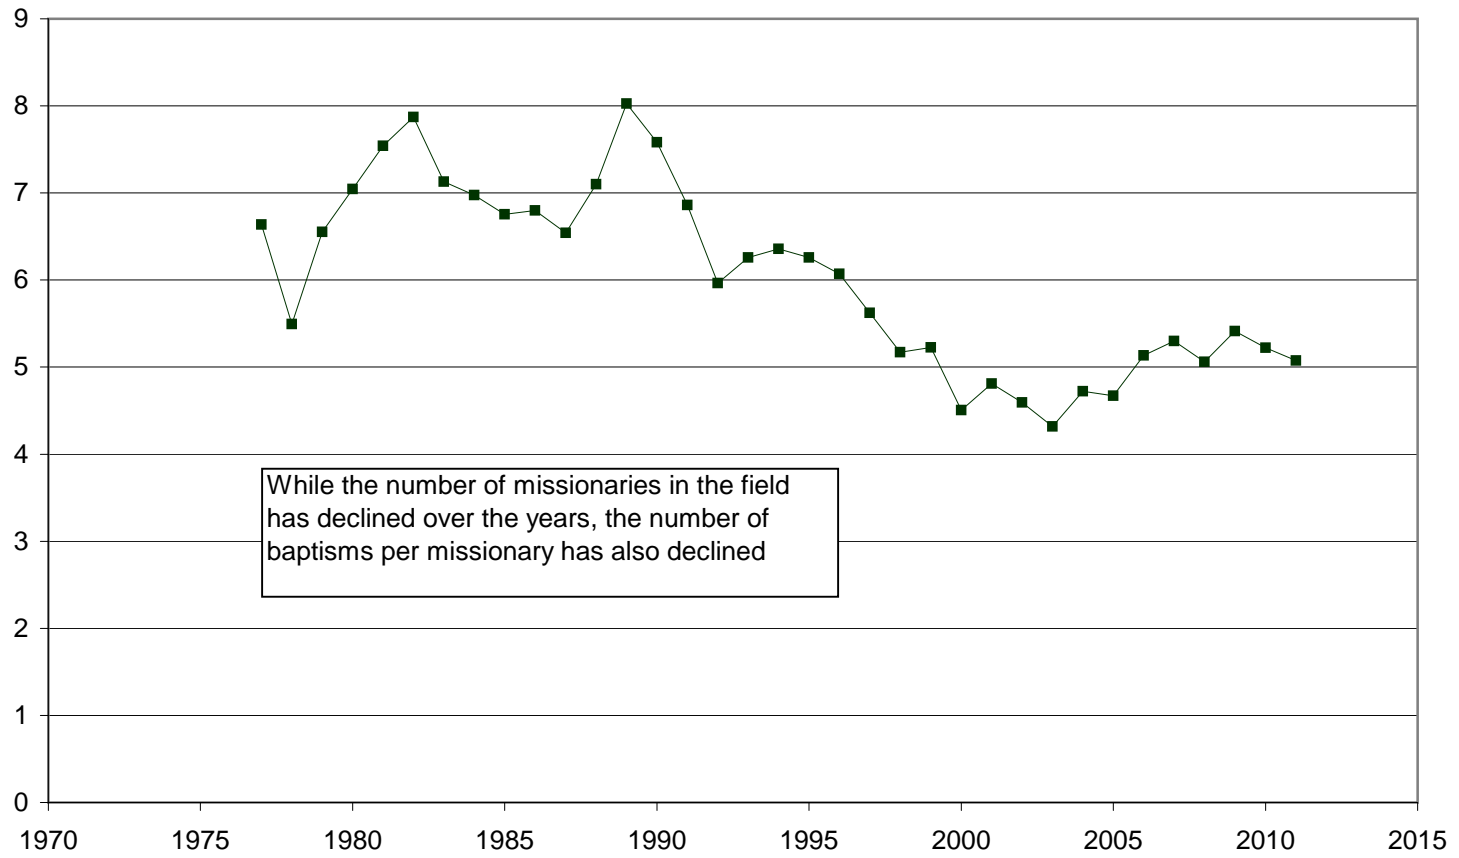

Claimed converts per year seems to be stabilizing at around 275,000

Number of Missionaries

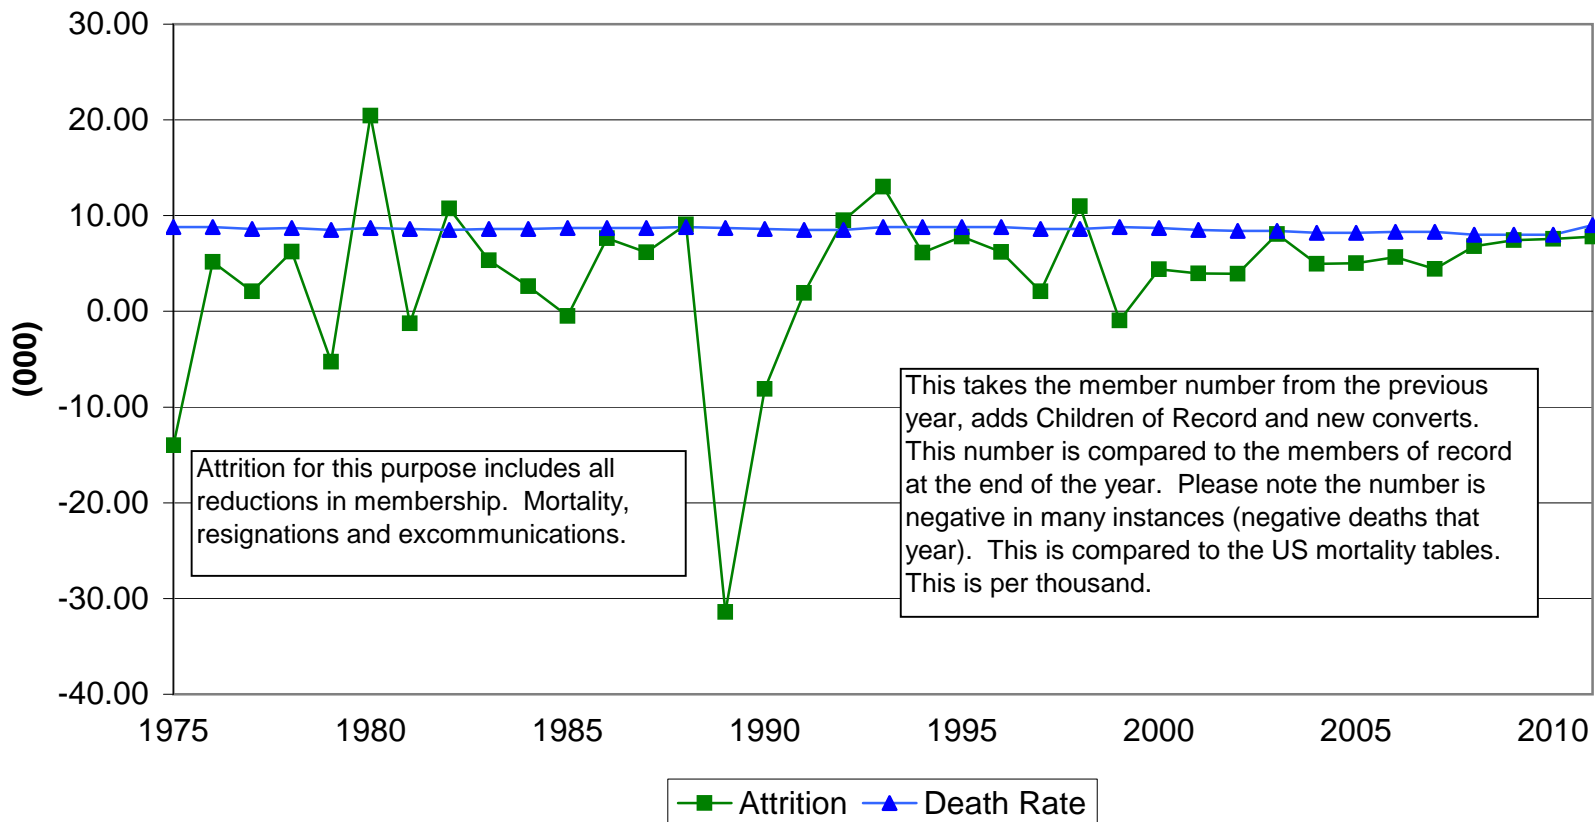

Conversions Per Missionary

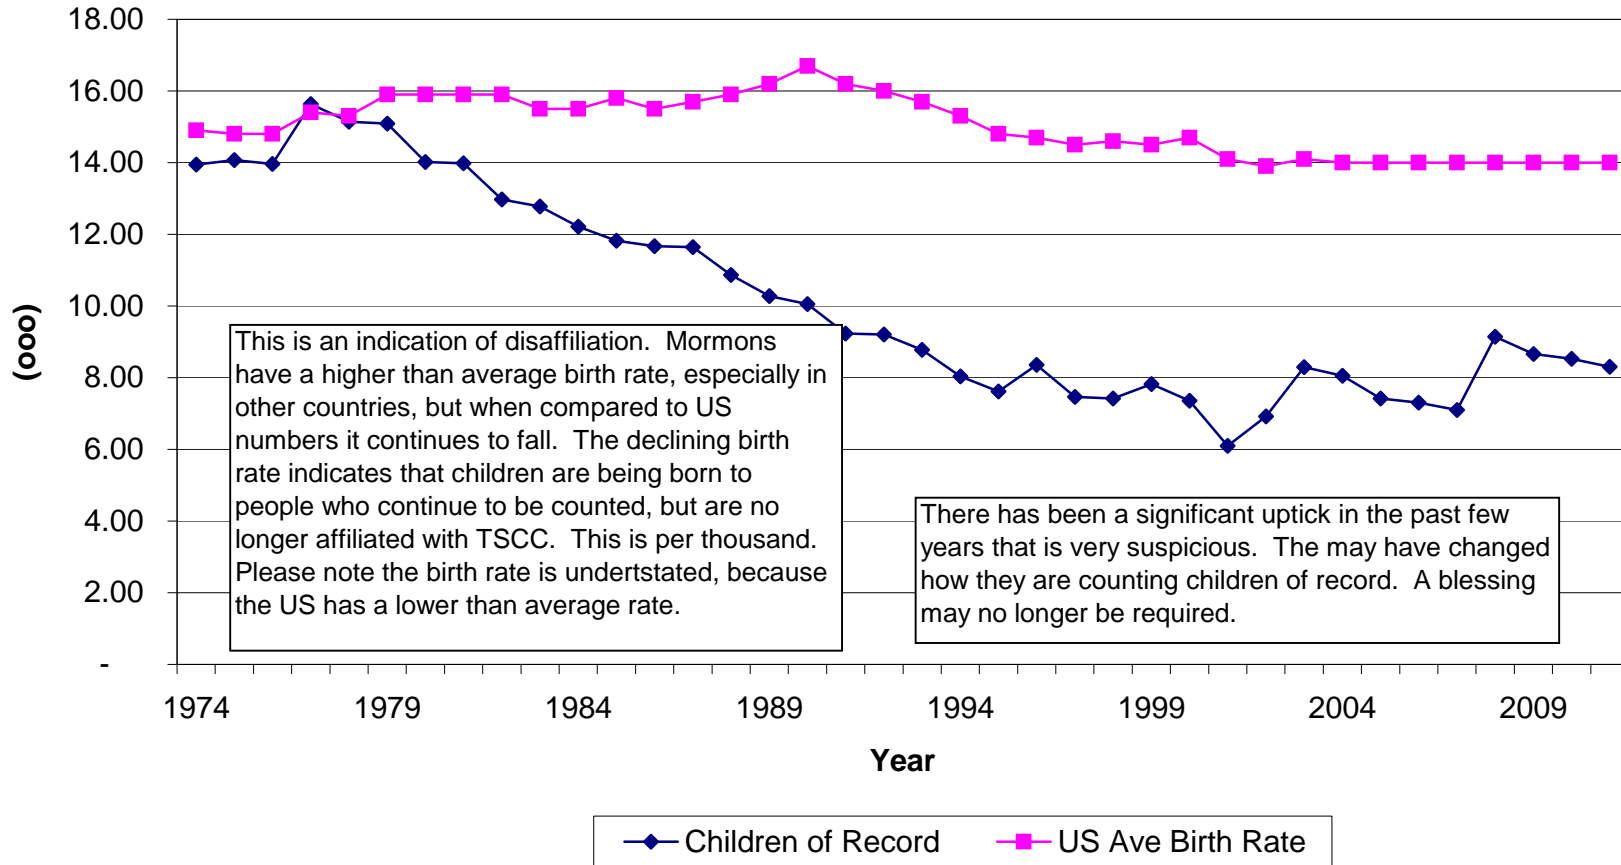

While the number of missionaries in the field has declined over the years, the number of baptisms per missionary has also declined
